CLINICIAN & SERVICE PROVIDER EDITION

Transforming Health Through Relationships via In-Person and Virtual Environments

Physical Activity and Wellness: THRIVE offers a spectrum of physical activity, wellness, nutrition, and social connection activities that doctors, therapists, and service providers can encourage patients and consumers to utilize with a 1:1 coach/mentor from the comfort of their homes!

THRIVE users discover and showcase their abilities through our activity packets, recorded classes, ability challenges, nutrition, recipes, and wellness tips.

Improve one’s fitness, emotional health, & quality of life by:
- Turning one’s home into a personalized activity space
- Utilizing activities that create a social connection with peers, assigned 1:1 mentor, and our THRIVE community
- Connecting individuals to existing resources and opportunities in one’s community (F2F or virtual)

In addition to resources, THRIVE offers individuals and families virtual classes or individualized sessions (with a 1:1 mentor - see page 2) and a physical activity backpack.
